FRIDAY, AUGUST 21, 1891.

In the Regina Standard of last week
there appeared a letter, over the sig-
nature of H. D. Perley, presumably
our Assiniboia Senator, which is by
all odds the grossest piece of obscenity
we have ever seen in print in the North
West Territories. The letter is, from
beginning to end, a tirade of abuse of
Mr. N. F. Davin, M. P. for Western
Assiniboia, and contains expressions,
not fit for the lowest brothel in the
country. We can only wonder at a
respectable paper, like the Standard, al-
lowing its columns to be polluted with
such filth, or to be the medium for the
ventilation of personal spleen. Mr.
Davin may be a bad man morally, of
which charge we have as yet no proof,
but he is doing a good work at Ottawa
for the settlers of the North West.
We do not agree with his whole course
during the present session, but he has
nobly stood up for the North
West on many questions affect-
ing the interests of his constituents. He
has fulfilled the pledges made to the
electors, for proof of which we have
only to refer to his course re. Second
Homesteads, Prairie Fires, Changes in
Land Laws, Immigration etc., etc. and
for which he deserves the thanks and
support of every settler in the country.
Mr. Davin has, as every body knows
his own peculiar weaknesses, but his
enimistic abilities, his devotion to the
interests of the Northwest and his de-
sire to do his very best for the country,
place him beyond the reach of injury
from such slanderous attacks. We fail
to see how the interests of the country
will be in any way advanced by a per-
sonal quarrel between our Senator and
our M. P. and certainly the letter, re-
cently published, will not raise the
Hon. Perley in the estimation of the
people which he represents.

Last night was a critical time for
the farmers of the Moose Jaw district.
The fore part of the night was cold
and as the mercury sank in the ther-
mometer to 35 degrees, it was feared
that the destructive frost might come
before morning. About twelve o'clock
however, the sky became clouded, the
wind sprang up, and the danger was
past. The lowest register on the ther-
mometer was 36 degrees,—four degrees
above freezing. A great deal of the

grain is just now in a condition when
frost would be most injurious, and it
is hoped that it will not visit us for
a couple of week yet. A good many
farmers have commenced cutting but
it will be fully two weeks before late
sown grain is fit for the binder. Never
before in the North West has there been
such fine crops, in every part, and
we believe that there is an era of pros-
perity ahead of the farmers, unparallel-
ed in the history of the country. May
a kind and benevolent Providence
avert any unforeseen calamity and bless
the tillers of the soil with an abundant
reward for their labors.

A SCENE ON THE CHICAGO GRAIN EXCHANGE.

Below we give a description of a
scene on the Chicago grain exchange,
last Monday. It is impossible at the
present time to tell how the market
will open in the North West, but from
the present panic in the great markets
of the world, we believe that those who
sell early will be the gainers.

Chicago, Aug. 17.—To-day's excite-
ment when the market opened was en-
titled to be called insanity. When the
going was struck announcing the be-
ginning of trading, the wheat pit was
a swaying, surging mass of brokers,
hatless and coatless, while the galleries
were packed to suffocation by wild-eyed
men who had money at stake in big
quantities in the gambling shop below.
December which closed at \$1.06½ Sat-
urday, opened at \$1.10½ and a shout
that was heard a block away. Scarcely
had the indicator noted this price when
there was another war-whoop and the
cereal was selling at \$1.13½, with a few
transactions as high as \$1.14. Then
the men who had bought wheat in the
nineties began to take their profits
and the pressure to sell broke the mar-
ket down and at the end of the first
hour December was quoted at \$1.05.
The bulls, however, were sharpening
their horns for another toss, while the
bears declared the top had been reach-
ed and that a decline would set in.
Corn was almost as excited as wheat.
September opened at 65, an advance
of 2½ and after touching 68½ in a few
moments went back to 64½. Oats fol-
lowed suit, September selling at 30 5/8
and an advance of 1 7/8. Sept. pork
rose to \$10.60, an advance of 40c
subsequently backing to \$10.47½. On
the London, Paris, New York and St.
Louis exchanges, excitement was un-
usually great, corresponding changes
in prices being recorded.

Toward the close it became evident
the bulls had had their day. Offerings
became heavier and heavier, and when
the board closed, December wheat was
selling at \$1.03. It was a great day
for both sides, great for those bulls who
got out at the top figure, and great for
the bears who were lucky enough to
seize the highest point at which to put
out short wheat. Corn and oats closed
lower, in sympathy with wheat.

THE C. P. R. PICNIC.

A Large Crowd, Pleasant Weather and a
Pleasant Afternoon

The annual excursion and picnic of
the employees of the C. P. R. has be-
come one of the established events of
the season, and one that is looked for-
ward to with anticipations of pleasure,
not only by the employees and their
families but by the great majority of
the citizens of our town and district.
The object of the excursion—to raise
funds for the equipment and mainte-
nance of the library and reading room
in Moose Jaw is appreciated by every
resident of the town, and the result is
that these excursions are becoming year
by year more largely patronized. Besides
assisting a worthy enterprise, every one
who attends is always sure of spending
a pleasant day. With the exception
of that of 1889, these picnics have
always been held at Qu'Appelle
station, in the beautiful bluffs, adjacent
to that town. This year the library
committee, Moose Jaw and Broad-
view decided to hold a picnic at
Qu'Appelle, the Moose Jaw library to
have the proceeds of the excursion from
Qu'Appelle, west and the Broadview
library that from the east. The result
was that the union picnic was a decid-
ed success and both funds received as
much if not more money than if there
had been two separate picnics. The
train from Moose Jaw, consisting of
engine and six coaches, decorated with
evergreens, flags and bunting, pulled
out from the station about 8 o'clock
having on board fully three hundred
people, all on pleasure bent. The
train was in charge of that prince of
conductors, Win. Rouatt, while the
clear eyed, watchful Con. Leary, occu-
pied the seat of honor and responsibility
at the throttle, being ably assisted
by Fireman Sharp. No thought of
danger marred the pleasure of the ex-
cursionists, as the train sped eastward
at the rate of 25 miles per hour, receiv-
ing fresh accessions to its load at Pas-
qua and Pense. Regina was reached
at a quarter to ten, where the party
was increased by about two hundred
residents of the Capital, who were
eager to participate in the day's pleas-
ure. Two more coaches were taken
on for their accommodation, and all on
board were provided with comfortable
seating. Qu'Appelle was reached at
11 o'clock, the run of 75 miles having

been made in three hours including
stops. The Broadview train with
about five hundred excursionists had
arrived a few minutes earlier, and when
both parties got together they made the
largest crowd ever gathered together
at Qu'Appelle. The first care of the
picnicers was to get dinner which was
secured by those who were so unfor-
tunate as not to come provided with
lunch baskets, after considerable
scrambling at the hotels of the town.
The afternoon was devoted to the pro-
gramme of sports and to quiet strolls
around the beautiful picnic grounds.
The weather was all that could be de-
sired—just warm enough for comfort
while the trees in the grove, furnished
shelter from the sun.

SPORTS.

The following is the result of the
different events on the sports pro-
gramme:
1 mile race, 1, J. Brown; 2, J. Gibson.
200 yard race, 1, J. Battell; 2, J. Black-
burn.
100 yard race, 1, J. Williamson; 2, J.
Battell.
100 yard boy's race, 1, Davidson; 2,
Thornburn.
Twinmen's race, 1, Blackburn; 2, J.
Cline.
Section men's race, 1, J. Dunn; 2, G.
McTaggart.
Engineers and firemen's race, 1, C. Clive;
2, J. Wilson.
Office employees' race, 1, J. Franks;
2, R. Fenton.
Round House employees' race, 1, Mc-
Kenzie; 2, W. Burton.
Standing long jump, 1, G. McTaggart.
Running hop step and jump, 1, J. Bal-
four.
Running long jump, 1, Boyce.
Standing high jump, 1, G. McTaggart.
Putting stone, 1, Gibson.

The foot ball match between the Regina
and Broadview clubs was won by the former
by a goal to 0.

LACROSSE MATCH.

One of the most interesting events of the
day was the lacrosse match, between the
Regina club and the newly organized Moose
Jaw club. The Regina team was greatly
strengthened by the presence of three of the
best players of the Winnipeg club, but not-
withstanding this fact the Moose Jaw boys
held the game down to a draw, with the
goal each. The Moose Jaw club was only
organized two weeks ago, and the result of
their first match must have been a surprise
to them as it certainly was to their oppo-
nents. The teams were made up as follows:

Moose Jaw.	Regina.
J. W. Smith, Goal.	G. Patena-
A. Prosser, Point.	J. Balfour
J. Blackburn, Cover Point.	R. B. Ferguson
T. McKee, Left Wing.	J. C. Pope
J. Hamilton, Defense.	Gen. Patena-
C. F. Smith, Center.	Gen. Patena-
J. F. Frank, Right Wing.	Gen. Patena-
C. Clive, Home.	E. J. Woodward
R. Holden, Home.	F. Whitmore
J. F. Watkins, Home.	W. H. Callender
J. Rutherford, Outside Home.	C. W. Peters
J. Melhuish, Inside Home.	Jas. Balfour
J. Rollo, Field Captain.	R. F. Chisholm
Referee, Thos. Rutherford.	

The start for home was made at 3 o'clock,
the train arriving at Moose Jaw at 11, hav-
ing on board the party of twin picnics.
Although tired they all declared that they
had spent a very pleasant day, and that they
would go again next year. The Committee
in charge are to be congratulated on the ex-
cellence of their arrangements for the enter-
tainment of their guests.

PROFESSOR ROBERTSON IN MOOSE JAW.

An Interesting Address to the
Farmers by the Dom. Govern-
ment Dairy Commissioner.

Prof. W. Robertson, Dairy Com-
missioner and Agriculturist to the
Central Experimental farm at Ottawa,
arrived from the west on Sunday even-
ing's express, and according to an-
nouncement made in last week's
Times delivered an address to the farm-
ers of the Moose Jaw district on Mon-
day afternoon. On Monday forenoon
Prof. Robertson drove out through the
Marlborough district to see some of the
crops of which he had heard so much
before coming here, and on his return
expressed himself as highly pleased
with what he had seen.

Lack of space prevents us from giving
more than a brief outline of the lecture
which was full of practical information
to the North West Agriculturists, and
which was thoroughly appreciated by
those who heard it. The chair was
taken about half past three o'clock by
Mr. H. Dorrel, president of the Agri-
cultural Society, who in a short speech
expressed the pleasure of the farmers
of the district in having with them so
distinguished an agriculturist as Prof.
Robertson. He was only sorry that
the time at his disposal did not permit
of a more thorough examination of the
resources of the district and of its par-
ticular requirements.

Professor Robertson on rising ex-
pressed his pleasure at meeting among
the farmers of the Moose Jaw district
so many old acquaintances from Onta-
rio. It was a sufficient guarantee
of the prosperity and development
of the district that it was settled with
so fine a class of settlers. Before sun-
ning here he had heard bad reports of
the Moose Jaw district. People had
told him that it was made up of gravel
hills but he could now state that the
land was as good as that in any part
of the North West, and that the crops
were equal to any that he had ever
seen. The district was admirably
adapted for mixed farming and to that
he would advise the farmers to direct
their attention as the surest road to
wealth. He would not advise them to
go into dairying yet; after a while

when the country became more thickly
settled it might be engaged in with
profit.

He then gave a description of the
crop outlook throughout Canada, and
the prospects for emigration from the
eastern provinces to the North West.
In the maritime provinces the crops of
all kinds were unusually good. The
farmers of Quebec were doing better
than formerly, and in Ontario the crops
this year, were above the average.
Taking these facts into consideration
he did not think that the North West
would get so many emigrants from
eastern Canada as if the crops were
poor. Still he might expect a larger
immigration than in any former year
since the country was opened up. The
attention of the people of England,
Scotland and Ireland, was being more
and more directed towards this Domini-
on and he predicted that Canada
would get the bulk of the future im-
migration from those countries.

He believed that Lodge wheat, is
the best for the North West. It is a
profuse, early ripening and a good mill-
ing variety. A gentleman in British
Columbia, received a three pound bag
of Lodge wheat and in three weeks
gave fifty tons. The bag which he
ever saw in his life was Lodge wheat,
grown last year near Prince Albert,
and which weighed 66 lbs. per bushel.
He would like as many as possible of
the farmers to send their names to the
Experimental farm and a three pound
bag of this wheat would be sent to them
from which in a very few years they
could grow sufficient seed. He found
the crops in Manitoba and the Terri-
tories, later than in the east, and later
than the average of previous years,
still from the nature of the weather
during the summer he did not antici-
pate frost until after harvest.

Professor Robertson then dealt at
some length with the operations of the
Dominion Government Experimental
farm, of which there are five; that
for the Maritime provinces at Lunenburg,
for Ontario and Quebec at Ottawa; for
Manitoba at Brandon; for the Terri-
tories at Indian Head; for British Col-
umbia at Agassiz. At the Central
farm at Ottawa, of which he was in-
charge of the Agricultural department,
they grow 181 different varieties of
grain, the object being to test and com-
pare the different varieties for the bene-
fit of the farmers of Canada. Last
year 12,000 three pound bags of two
grain barley were sent out to farmers
and this year 11,000 bags were sent
out. They had eighty-two kinds of
grass growing on the Ottawa farm, and
of all the varieties tested, the native
grasses of the prairies of the North
West were the most nutritious, and
have given the best results. He ex-
pected to have seed after a while to
sell to the farmers of the North West.
With regard to feeding stock, it did
not pay to feed much grain to swine,
from 5 to 5 1/2 lbs. per day is sufficient.
Pigs do better on raw grain crushed
than on boiled or steamed food. If
properly fed and killed at the proper
time, one pound of pork should be pro-
duced from every 4 pounds of grain
fed. On the experimental farm they
had five breeds of pigs and he found
that a cross between white Yorkshire
and Berkshire was the best pig for the
farmers.

With regard to fruit culture in the
North West he would not advise the
farmers to pay any attention to the
cultivation of the larger fruits until
they received more information on the
subject from the experimental farm.
Tests were being made as to the vari-
eties of the different fruits best adapted
for this country and the results of
these tests would be made known to
the farmers. In the meantime small
fruits could be successfully grown.
During the past year 125,000 strawberries
raised from seed were sent out from
the farm, in bundles of 100 boxes each
to the farmers for planting, and of
those sent out he believed from reports
sent in that fully 80 per cent. were
growing.

The ultimate object of all farming
was to find food for the people, and in
this way the farmers feed the world.
An average man's body weighs 145
pounds, made up as follows: water 80
lbs.; albuminoids 26 1/2 lbs.; fats 33 lbs.;
carbo-hydrates 10 1/2 lbs.; mineral
water 8 1/2 lbs.

At the conclusion of the lecture a
vote of thanks was tendered to Prof.
Robertson after which the meeting
dispersed, the farmers carrying away
with them many useful and practical
ideas, which they will, no doubt, find
of great use to them in their work.

WATCH YOUR CARTWHEELS.

American Counterfeit Silver Dol-
lars Now in Circulation in
the City.

Every American silver dollar you
get, examine carefully. During the
past few days a number of counterfeit
silver dollars have been passed over
bars and places of business in the city.
They have been brought to the city by
a gang of toughs supposed to be fol-
lowing Burke's circus. A number of them
are now in circulation in the southern
states and in southern Manitoba.
They are a very good imitation, but are
somewhat lighter and have not the
ring of the genuine article. It is an
easy matter, however, to detect them
if caution is used.—Free Press.

Important to Girls.

One afternoon in May,
I was a drunk, the server had
just poured me a glass of beer,
he faithfully tried to explain it all,
the tried to understand

and now they don't even see.

THE RAIN

Emma Good Advice is in the Character
Treatment.

"Don't wash your hair." This is
run by a woman who has been
in the business for the last 13 years. She says
"I believe the average
woman grows the life of her hair
and about 30 young women who
hair by the season, constructing it
and coming twice a week, a
social arrangement, make home-
to hair washing. Not a drop of water is
in a healthy condition. We pin our
a good brush and prefer a short-
hair."

but on the scalp as well. A man's hair should be taught how to dress and to be as attractive by object lessons. This instrument was used on my hair. In teaching me why I should be the same as the other, the first thing on the hair is explained is to be as lightly looking is about. The second thing is not to be long and, and as the instrument is used they fall into sections. The third thing is to be as the scalp they are of beginning to be as the scalp they are of beginning should start at the second hair. In other words, comb up the hair. The last word, comb up the hair. This breaking and starting is to avoid tangling, making and starting. The last thing, the hair should be brushed thoroughly. By this I mean that the hair should be brushed as a full hair should be spent, from the hair and then the head.

Prize Lines.

The Future of Humanity.
In his recently published "Trinity of Man," Dr. Joseph has written an interesting and thought-provoking book. It is a book of the future of humanity, and it is a book that should be read by every person who is interested in the future of the human race. It is a book that should be read by every person who is interested in the future of the human race. It is a book that should be read by every person who is interested in the future of the human race.

They are always proud of being married more than once. You find that in the case of some of them. "Ab, but I have, though," said one married five on 'em in the church. "I did—and free on 'em lawties!" On other occasion I playfully suggest to them, "Mix up your husbands with me." "Well, to tell you the truth, I don't do it," said one, and I said, "I don't mix him up. He's fighting—you've heard tell of it." "No doubt. The others want to mix him up. He'd 'a' mixed them up with me if they'd interferred of him." He'd 'a' made nothing of them," said James' Gazette.

A Devonshire Cable Road.
One of the simplest and yet most satisfactory cable roads in existence is that running between the two Devonshire

top of a cliff. The cliff is made of sand, and there are two passages connected to each other by two pipes of steel wire cables, each made by the same pulley fixed at the top of the cliff. Underneath, but attached to the cables, is a tank, and water is allowed to flow into the tank of whichever car happens to be at the top, and by its weight causes the other car to descend, and at the same time causes the other car at the bottom to ascend, only a sufficient amount of water being allowed to enter the car at the top just to prebalance the load of passengers. The car at the bottom is then requiring to be brought up in the same way.

The passenger cars can be made to run up and down the cables, and be hooked and run off the platform at any time, thus leaving a plain table for the

[illegible]

Etiquette on the Street.

When two gentlemen are walking together, the lady the one takes the left and the other the inside, thus keeping her between them. When one gentleman is walking with two ladies, he places himself between them. When a gentleman desires to pass a lady who is passing, he may if he wishes to do so, and alone, sooner her, but he must not detain her. Instead, let him

and when he has some leave
a bow and smile, raising his
estrate. It is no longer thought
for a gentleman to keep himself
sually on the outer side by stand-
at every corner. Such a habit
ness and is too marked a con-
form. Gentlemen may take the
n it would seem swished in its
s, but the outside is preferred for
Philadelphia Saturday Herald.

A woman wage-earner who works from morning until 5 at night and usually finds herself too weary to wash down her hair at 10 o'clock, brushes vigorously, washes her face, neck and hair with lukewarm water, takes a warm bath and goes to bed, with a hair bag at her feet. The lights in the room are arranged that the sun-

... work, extinguish it without risk
she usually drifts into dreamland
than half an hour.—Chicago Tribune

Philadelphia expects to come out of
the conflict with a million in
loss. And so does Chicago.

Queen Victoria has ordered the
mail to paint for her a portrait of

Canada Permanent Loan and Savings Co. Money to Loan. Apply to Wm. Grayson.

The Rathwell Farmers' Elevator and Milling Company is applying for incorporation, with headquarters at Rathwell, a small village on the Manitoba Southwestern railway.

Mr. and Mrs. A. Smith of the C. P. R. Dining Hall entertain a number of their friends on Monday evening. About forty guests were present and a very enjoyable time was spent.

A meeting was held at Moosemin, Assa., recently at which the Moosemin Elevator Company was organized, with a capital of \$8,000. It was decided to build a 40,000 bushel elevator and to proceed with the work as quickly as possible.

Go to Sullivan's for the Celebrated Bakery Organ, Krone's Piano and Walter's Sewing Machine.

A joint stock company is being organized among the farmers of the Marlborough and Buffalo Lake districts for the purpose of purchasing and operating a new steam threshing outfit. It is expected that they will be able to save money, besides having the convenience of the machine when desired.

A three year old child of Mr. Lano, Medicine Hat, was instantly killed before its mother's eyes. The child was playing near an out building to which a clothes line was attached. On this line Mrs. Lano was hanging out washing. A gust of wind caught the wet clothes and swaying the line, pulled the building over on the child crushing it instantly.

TO LET—Two First Class Furnished Rooms. Apply at the Times Office.

A number of farmers in the southern part of the district, and also some in the Buffalo Lake district commenced wheat cutting this week, and harvest will be general over the district next week. The weather is hot and the crops are ripening very fast. If the frost keeps away for a couple of weeks longer the bulk of the grain will be past injury. The late grain is also coming forward with surprising rapidity.

FOR SALE—One span of young mares one wagon and a set of harness, nearly new. Will be sold on reasonable terms. Apply to 49 Resent, Winton, Moose Jaw.

The Regina Standard has on good authority that Councillor Cowan, of the Northwest capital, has entered action for libel against Councillor Paul, whom he charges with unfair comment on his conduct as chairman of the town hall committee. The plaintiff has given his case into the hands of Mr. Hagg of Winnipeg. Messrs. White and Wyman, of Moosemin, will be associated with Mr. Hagg in conducting the case. Messrs. Scott and Hamilton will conduct the defence.

It is expected that on Wednesday next the Presbyterian Sabbath School will hold its annual picnic on Mr. Alex Thompson's farm, one mile south of the town, same place as last year. An excellent programme has been provided for the children. The children meet at the Church at one o'clock, when teams will be provided to take them over. The Sabbath School cordially invites everybody to bring a basket and enjoy themselves. The sports will be open to the children connected with the Presbyterian Church either in town or country. Should the picnic not take place next Wednesday the change will be announced on Sunday.

CRICKET AT FORT QUAPPELLE

"The Goings" on an Outing.

Amongst the numerous things that Moose Jaw boasts—her extensive public buildings, her enterprising men of business, her electric light system, and even her chemical engine, she points to none with so much pride and satisfaction as she does to her newly formed cricket club. In this age of fame and games have but a brief period of popularity; but wherever the English language is spoken there will always be played the game of cricket, that game that is as dear to the heart of an Englishman as his roast beef and his nut-brown ale.

On Friday last a social crowd left Moose Jaw on No. 2, it consisted of "Old Cap," the life and soul of the party, ever solicitous for the good behavior of his men, the "Honorable Jim," without whom such an excursion would be very incomplete, "Long Tom," the "Boy Bachelors," "Lion Tom," "Little Fatty," "The Man Who Never Played Cricket," "The Justice of the Peace," "Jelly," "The Commissioner," The Chaplain, and "Estanoushah" which is Sioux for The Man Who Wears The Double Windows. The lovers of the Great Vegetable—

"Sweet when the morn is gray
"Sweet when they've cleared away
"Lunch, and at close of day
"Possibly sweetest.

turned their steps instinctively to the smoking compartment. Soon they went for the Chaplain, who endured the horrible atmosphere with great fortitude. Speeches were delivered, songs were sung and the Man Who Never Played Cricket and Estanoushah made night hideous with two mouth organs. About two o'clock, the party alighted at Qu'Appelle station. Dead to all entreaties "Old Cap," with the air of a despot, bawled the men off to bed. After breakfast, next morning, all were ready for the drive of 15 miles to the Fort, when the Cap informed the men that he had been sending telegrams all over the Territories in order to find the whereabouts of the "Horse King," who is one of the crack bats of the team. A delay occurred and finally the delinquent was found to be at Indian Head. As it would take him an hour or more to drive to the station, it was decided to go on to the Fort and leave "the Cap" to wait for him. Accordingly, "Fatty," "Dad" and the "Honorable Jim" started in a phaeton and the rest of the crowd in a commodious bus. Uphill and through dale, past alternate bluff and lake, the vehicles moved on. Here and there a company of snipe were disturbed at their morning meal, here and there a straggling herd of cattle lifted their heads to look with easy indifference upon the passing teams, and anon a jack rabbit sat for a moment upon his haunches with eye and ear on the alert, and then bounded away until the gray of his bounding body merged with the gray of the silver poplar, and he disappeared.

And now the valley was reached. From its side could be seen the two lakes of Qu'Appelle stretching out in the morning sun. Snowy pelicans rode hither and thither over the water or lazily winged from one lake to the other. Between these beautiful sheets of water nestled the little town. As the party drove through its streets various objects of interest were pointed out, the chief of which were the remains of the old Hudson Bay fort. The party drove to the Qu'Appelle Valley Hotel where a rousing reception awaited them. Travelling clothes were changed for cricket uniforms and both clubs sallied forth ready for business. When the Cap and the "Horse King" arrived the preliminaries were arranged and the "Goings" went to the bat.

The first to in were the Cap and Tuxford the younger. After some very pretty batting the two were at length parted by Tuxford's being bowled by an excellent ball from Atherton, but not until they had put together a good 24 runs for the first wicket. After this the splendid bowling of Atherton and the "Goings" caused the "Goings" to fall fast. "Long Tom" and the "Commissionary" made a short stand but as the score beneath shows no one made big figures and the innings closed for 56 runs. After a most substantial lunch Qu'Appelle took their first innings. Messrs. Brine and Iredale going to bat. In this innings Brine made the best stand, being the only one to get down figures. "Tuxford" and "Long Tom" bowled exceedingly well, and the fielding was so good that not a single bye or extra of any kind was secured. The total runs for the innings was 16.

In the second innings the "Goings" did not do so well, as the first wicket fell for runs. The "Boy Bachelors" got together, however, and ran the score up to 25, when the younger was bowled by Atherton. The innings closed with 60 runs. The Qu'Appelle Valley team again went to bat. Brine and Joiner made a good stand. Throughout the innings the bowling was good and the ten wickets fell for 52 runs. The noteworthy features of the game were a six-hit by the "Cap," and two five hits by Tuxford and the "Honorable Jim," the latter his being clean hit over the pavilion. Birbeck made a clean hit over the head of "Long Tom." On Qu'Appelle side Messrs. Brine, Swarder and Joiner made some pretty hits for three. The catch of the day was made at long on by The Man Who Never Played Cricket.

Supper was now in order. Mine host of the Qu'Appelle Valley hotel had charge of this part of the proceeding. After attending to the wants of the inner man, Mr. Dixie Watson of Regina was appointed chairman. Speeches were delivered by the captains of the two clubs and Messrs. Brine, Elkington, Atherton, Ross and others. And now the time for departure had come. The visitors were packed away in the bus. The citizens of Qu'Appelle lined up, about two hundred strong, and gave three rousing cheers for Moose Jaw. The rig had proceeded but a few yards when a white tree broke. The crowd surrounded the vehicle, unhitched the horses and, amid deafening cheers backed up the party to the door of the hotel. A sickly of an hour occurred

but finally the "Goings" got started. Arrived at the Station, they found everything quiet, hotels full and No. 1 four hours late. The train was taken at 7:30 and at 11 o'clock the party reached home, all well pleased with their outing.

We are forced for want of space, to hold over until next issue, the official score of the match.

BOHANN SPARKS.

Wheat harvest will be in full blast in another week, and hereby is now being out. Mr. John A. Hill's face wears a broader smile than usual, this week, he having been presented by Mrs. Hill with another daughter. Messrs. Smith and Dalgarino are preparing for the fall threshing. The chances are that they will have most of the threshing to look after, judging from reports as to Andy's proposed change in life. The base ball clubs of Pioneer and Caron, played a match on Friday last, 14th inst, which resulted in a victory for the Pioneer boys. The following is the official score:—

CARON.	
Campbell	0
Porter P.	0
Paisley	0
Griffiths	0
Wilson	0
Wilson R.	0
Hurlbert	0
Porter J.	2
Total	5

PIONEER.	
McBride	5
Green	4
Bensley	4
Barnes	4
Getty	4
Dalgarino	4
Battell	2
Yates	2
Total	29

We are all pleased to see that the scheme for the erection of a joint stock flouring mill at Moose Jaw is getting along so nicely. The people of the district have taken the right step at last, and anything that helps the town, increases the value of the land in the district. We hope it will be successfully carried to completion.

Don't Miss it.

A new and attractive publication containing many useful, interesting and instructive features has just been issued by T. Milburn & Co., of Toronto, under the title of the Burdock Blood Bitters Almanac for 1911. It is now in the hands of the druggists and merchants for free distribution and we would promise our readers to secure a copy before the supply is exhausted.

DEATHS.

NEELAND: In Moose Jaw on Thursday, Aug. 20th, the infant son of Mr. and Mrs. W. Neeland; Aged 22 days.

BY-LAW NO. --

Of the Town of Moose Jaw

to Raise by Way of Loan

the Sum of

\$7000.00.

Whereas it is necessary and expedient to raise by way of loan the sum of \$7000.00 for the following purposes, namely: \$2000.00 to pay the balance on a chemical engine purchased by the said town and freight thereon; \$500.00 for the erection of a two-story brick building in the said town to accommodate the sawing machine and a carriage; and whereas it is deemed expedient that the said loan shall be for the period of twenty years with interest at the rate of six per cent. per annum payable half yearly; and whereas in order to discharge the said principal money and interest according to the terms of this By-law there will require to be raised each year of the said loan, the sum of seven hundred and seventy dollars; and whereas it will require an equal annual sum in addition to all other rates of four mills on the dollar in each year of said loan for the dollar in addition to all other rates on the whole rateable property of the said Town of Moose Jaw in each and every year of the years 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, and 1930.

Therefore the Council of the corporation of the Municipality of the Town of Moose Jaw enacts as follows:—

1. This By-law shall take effect on, from and after the eighth day of October, 1911.

2. That there be levied and raised an equal annual and special rate of four mills on the dollar in addition to all other rates on the whole rateable property of the said Town of Moose Jaw in each and every year of the years 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, and 1930.

3. For the purpose aforesaid the Mayor of the corporation of the Municipality of the Town of Moose Jaw shall cause any number of debentures of the said Town of Moose Jaw to be made for such sum of money as may be required for the said purposes not less than one hundred dollars each and not exceeding the sum of seven thousand dollars and payable in twenty years from the day this By-law takes effect, which said debentures shall be sealed with the seal of the Corporation of the Municipality of the Town of Moose Jaw and signed by the Mayor or by such other person as may be authorized by the Council of the said Corporation or by any other person or persons as the Council may hereafter by this By-law appoint.

4. That the debentures shall be made payable in twenty years from the day herein before mentioned in this By-law, to be paid at the Bank of Montreal in the city of Winnipeg, Manitoba, and shall have attached to them coupons for the payment of interest at and after the rate of six per cent. per annum payable half yearly from the day of the date thereof.

And it is further enacted by the Council of the corporation of the Municipality of the Town of Moose Jaw that a poll shall be held and the votes of the electors entitled to vote on this By-law be taken on Saturday, the Fifth day of September, 1911, at the Council Chamber in the town of Moose Jaw, commencing at the hour of nine o'clock in the morning and closing at the hour of five o'clock in the afternoon of the same day, and that the Returning Officer for taking the said vote shall be Seymour N. de F. Green.

The said Returning Officer shall sum up the number of votes for or against this By-law on the Seventh day of September, 1911, between the hours of nine and eleven o'clock in the forenoon at the Council Chamber.

NOTICE

The above is a true copy of the proposed By-law to borrow \$7000.00 for the purpose therein mentioned which will be taken into consideration after one month from the first publication thereof in the issue of the Moose Jaw Times newspaper published on the Fourteenth day of August, 1911, and the poll will be held for taking the vote of the electors at the Council Chamber on Saturday the Fifth day of September, 1911, between the hours of nine o'clock in the morning and five o'clock in the afternoon, of which all persons interested are required to take notice.

THOS. E. HIRBECK,

Clerk of the Municipality of the Town of Moose Jaw.
